NOTE: We will email you an order receipt confirmation, as well as your invoice with tracking information upon shipment.

We **DO NOT** test boards before repair. If possible, we recommend you field-test your board before sending it, including testing the board in a working machine, checking wiring harness/coin eye/door lock, etc.

Describe the symptoms of the board(s), including what it is or isn't doing. Is there an error code?

Please check if your note is continued on back → →

Please include machine Model No. _____ and S/N _____

In order to complete repairs, additional parts may be required that incur charges above the base rate.

These may include touch pads, membrane switches, displays, faceplates, or button assemblies.

If boards in your order are not repairable, we should: **RETURN THEM** **RECYCLE THEM**

Please record your DRYER settings below, because factory resets may occur during repair.					
Cycle time:	Cycle price:	Temp HI:	Temp MED:	Temp LO:	Cool-down time:
Due to the complexity of various wash configurations and cycles, we DO NOT program washer boards.
